Subject Re: Stream Survey on Noduto

History:

 This message has been forwarded.

Noduto is my husbands Indian name meaning "Blue Hair". My husband and I kayak regularly on Indian Creek and Elk River. We pick up a great deal of trash as we float down. Some areas seem quite dirty with strong odors which is why we are interested in the water testing. Any info about this would be appreciated.

Thanks,

Chris and Cathy Younge

Subject: Stream Survey on Noduto

Good Morning!

We received your comments on "Noduto" via the Stream Usage Survey on the Internet. We appreciate your comments, but we have not heard this name before and have no stream in our state database by that name. Can you explain what the term means? The towns you mentioned are on Indian Creek (Lanagan), South Indian Creek (Stella) and the Elk River (Pineville and Noel), which are all assigned Whole Body Contact Recreation. No UAAs are being conducted on them as they are permanently flowing water bodies. Your comment will be place in all three files as further evidence of existing [swimming and other recreational] uses.

Thanks you for your response,
